
Table of Contents

| | |
|---|-----|
| 1. <i>Study of dopamine-diazepam biomolecular complex using IEFPCM model and spectroscopic techniques</i> by Lamthaka Willingson and Th. Gomti Devi | 07 |
| 2. <i>The interconnection of cosmological constant and Rényi entropy in Kalb-Ramond black holes: insights from thermodynamic topology</i> by Bidyut Hazarika, Mozib Bin Awal and Prabwal Phukon | 39 |
| 3. <i>Long-term trends in extreme precipitation indices over Cachar district of Assam : 1901-2021</i> by Abhay Bhattarai and Atri Deshamukhya | 53 |
| 4. <i>Unusual Spectral Behaviour of Ethanol Using Simple Xenon Lamp Excitation Source</i> by Raghmani Singh Ningthoujam | 65 |
| 5. <i>Circular motion in a static and stationary charged anti-de Sitter black hole in $f(R)$ gravity</i> by Heisnam Shanjit Singh | 82 |
| 6. <i>Texture zero neutrino mass matrix in left-right symmetric model: a phenomenological study</i> by Happy Borghain | 90 |
| 7. <i>Fourier analysis of firefly pulses at low temperature and under a strong static magnetic field</i> by Angana Goswami, Mridusmita Phukan and Anurup Gohain Barua | 103 |
